

IT HAS BEEN NOTIFIED BY THE AUTHORITY THAT ON SATURDAY i.e. 10TH MARCH, 2012, MORNING FOR MEMORIAL DISCURSE OF A REV ACTG. PRESIDENT, BHARAT SEVASASHRAM SANGHA

To-day the subject of the Morning's talk is "Approach to the eternal Truths (and add to human problems) in terms of the scientific rational thoughts patterns of the present day, and to so how in the light those truths, human life and society can be elevated to a higher level of culture, harmony on the fulfillment, has been special characteristics of the talks and Lectures of Swami Abhayananda Maharaj, Acting President, Bharat Sevashram Sangha.

We are therefore, happy to publish this leaflet form his enlightening lecture at Bangladesh in 2011.

Before our independence, there were many good, broad-minded people in India. Now a days, we have too many petty minded people. Rev. Swamiji occasionally say, we are small people of a big country. This must change several times our earlier history, our country was great. Many foreigners came here and took with them noble and positive ideas. Then came stagnation which was lifted.

Sangha Lord Acharya Swami Pronovananda Maharaj (Founder of Bharat Sevashram Sangha) said expansion is life and contraction is death. We are contracting our minds and moving towards death. Sangha Lord (incarnation of Lord Shiva) came to reverse this. He exhorts our people to give-up our narrow ideas and try to become broad-minded in every sphere, receive ideas from other Nations, assimilate them, and make the Nation progressive and modern.

Conclusion :

There are only rituals left in all our religious, nothing else. Even these are got done by a Priest. People pay him a amounts/kinds. This is how we practice 'religion' to-day ! Sangha Lord have come to teach us that religion means spiritual growth and the development of character, and rituals and other practices are of no use, if they help us to attain these. Spiritual growth or manifestation of the Divine within is the key term in Religion.

Our Rev. Swami Abhayananda Mahara (popularly known as Haridwar Swamiji) after finishing his Annual Utsav at Nadia and Dokra return back to Head Office, Kolkata at 5 p.m. on 29th February, 2012. Due to his strenuous journey/climatic conditions and old-age sickness, he was all of sudden being a Human body completely under the medical treatment in his room till 8 p.m. Doctor's after complete checking advise us to apply medicine, oxygen inhalation etc.

Throughout the night he was un-rest and sometimes feels rest. At 3.30 A.M. on 1st March, 2012, he was given tablet with electoral powder water. He clearly says that water is bitter test (Tita) he then as usual start in his bed, his meditation/japa till the end of Mangal Arati at 4.35 a.m. few Swamiji's came to his room for pranam and his blessings all of them were blessed by Rev Swamiji by touching their Heads.

After that he slept for few minutes and again raise his body. He was offered Holy Nectar of Guru Maharaj in his mouth.

All of a sudden he was bent. Immediately, I raised his Holly Body and observed that His two eyes are open full of size and body is totally cold and no pulse response it was around 4.55 a.m. on 1st March, 2012, Thursday, (Bangla 18th Falgun, 1418, Uttarayan (Shukla Paksha).

Holy Swamiji lays his soul to the lotus feet of Sangha Lord.
